Surplus Lines Tax Filing Challenges	InsCipher's Solutions
No centralized organization of each individual state's compliance requirements	A regularly updated, comprehensive knowledge base
Other filing services only provide courtesy filings, leaving you to figure out the other 13 states on your own	Courtesy filings under our license, or use your own and we'll handle the paperwork
Snail mail submissions prevent real-time access to filings & filing status	Digital submissions enabled by instant document downloads & uploads
No assurance of compliance	Real-time compliance error notifications with the ability for instant, digital corrections prior to submittal
3rd party services do not address state stamp or countersignature requirements	Templated state stamps & submission of documents for countersignatures from the state
Time-consuming tasks prevent in-house employees from focusing on revenue-generating production efforts	500% increased efficiency frees up time for more profitable tasks
Large amounts of time spent researching compliance, but with no guarantee of accuracy	Weekly updates of state rules, forms, rates, tax laws, reporting schedules, and filing deadlines

Don't let the old way of doing surplus lines hold you back. Set your business free with greater efficiency and streamlined compliance.
